MOBILE COMPUTERS

Capture, move and manage data in real time for real business value

The MC3000 mobile computers from Symbol Technologies are rugged mobile computers ideal for scan-intensive environments that require high-quality data capture throughout the enterprise. Their superior ergonomic design and balance help to facilitate faster decision making and increased workforce satisfaction inside the retail store, on the loading dock or on a delivery route.

Unprecedented flexibility, performance and power

A variety of feature options, including one-dimensional (1D) laser and 2D barcode reader, color display, batch or wireless communications, a gun form factor, Bluetooth and audio capability, and three keypad options, allow you to meet your customer, employee and IT needs. Each MC3000 mobile computer is based on a high-performance mobile Intel XScale PXA270 processor supporting 64 MB of RAM, which helps you gain significant business value by ensuring maximum user productivity. The Microsoft Windows CE operating system offers familiar interfaces and the power of Web-based applications for greater usability and employee satisfaction.

Reliable performance in variable conditions

The MC3000s' rugged design and IP54-rated sealing ensure continued use and uptime by protecting against dust, moisture and extreme temperatures. And, whether working inside or out, the MC3000s have a drop spec of four feet to concrete across a wide temperature range, reducing equipment and maintenance costs.

Unlock the value of your information with Microsoft Windows CE

Bringing the next generation of mobile computing to your business, Symbol's MC3000s are built on the Windows CE operating system. With real-time processing, faster performance, rich multimedia and Web browsing capabilities, your enterprise can become truly mobile with interoperability between personal computers, servers, Web services and devices. Symbol's enterprise mobility solutions go beyond mobile devices and wireless connectivity to ensure that every aspect of your mobility solution works seamlessly and at maximum efficiency.

Complete your solution with Symbol Global Services

Even the most rugged products require a maintenance plan and support strategy. That's why Symbol has designed comprehensive set of services that cover every aspect of the MC3000s—helping to ensure our customers derive full value from their investment.

FEATURES

- Light, ergonomic design
- Well-balanced gun form factor option
- Visual scanning feedback on the sides (gun only)
- Laser versions with adjustable rotating scan turret with left, right and front positions
- 320 x 320 resolution color/mono display (with backlight)
- Wireless 802.11b/g/a LAN connectivity
- Bluetooth option
- Rugged design
- IP54-rated sealing
- Intel XScale PXA270 processor and Microsoft Windows CE operating system
- Keyboard options include 28, 38 and 48 keys
- Device management with Mobility Services Platform (MSP)
- Service from the Start—Bronze, Silver, Gold (For initial product sales)

BENEFITS

- Reduces user fatigue for higher productivity in scan-intensive applications
- Comfortable to use in intensive scan environments for prolonged periods
- Provides visual in addition to audio feedback without having to reorient the device
- User can adjust the scanning positions for maximum comfort and productivity
- 30% higher resolution than 1/4 VGA allows easy viewing in many environments for increased accuracy
- Provides real-time data exchange for maximum productivity
- Enables use of and wireless connection to a range of devices
- Withstands multiple 4-foot drops (1.2 m) to concrete and up to 500 tumbles
- Protects against water and dust for reliable performance in rough environmental conditions
- Delivers high-speed CPU performance through familiar interfaces with wide software application support
- Provides multiple data entry modes for maximum efficiency
- Enables real-time monitoring of critical mobile computer and wireless infrastructure parameters
- Provides a cost-efficient option that can be purchased upfront with the hardware or within 30 days thereafter
